If the Authority determines that the sanitary facilities are not adequate, it may require the vacation of any and/or all buildings, structures, or other improvements, tents and house trailers, and require their removal or remove them if after 10 days' notice the owner has failed to correct the situation by installation of necessary sanitary facilities specified in the Authority's notice, (2) If, in the opinion of the Authority's sanitary engineers, the water supply is inadequate for the purpose for which the property is being used, or if they determine that it is contaminated, the owner, on 10 days' notice, must provide a new and adequate supply or upon failure to do so, the Authority may require the vacation of any and/or all buildings, structures, or other improvements, tents, and house trailers, and require their removal or remove them. (3) No buildings, structures, or other improvements, tents or house trailers, shall be used for any purpose or to carry on any business which might tend to lower the morals of the community or be incompatible with the development of the area through the expenditures of public funds, which restriction in the use of the property shall include the sale of wine, beer, and other beverages of alcoholic content. (4) No additional improvements to be used for human habitation shall be placed on the property unless the Authority approves of the sanitary facilities to be provided in connection therewith. (5) All buildings, fences, structures, or other improvements, tents and house trailers, may be salvaged by the Seller provided he removes the same from the land prior to December 31, 1943.

Wherever the context hereof requires, the plural number, as used herein, shall be read as singular, and the masculing gender as feminine or as neuter.
