The above described tract of land is shown on Tennessee Valley Authority Land Map 19MS 421K 04-5, Fontana Reservoir, a copy of which will be filed in the office of the Register of Deeds of Swain County, North Carolina,

The above described land is a portion of the land described in a deed from Mack Hayes to Bill Crane, who is the same person as the William Crane named as one of the grantors herein, of record in the office of the Register of Deeds for Swain County, North Carolina, in Book 64 page 67.

It is understood and agreed that the bearings given in the above description are based on the North Carolina State Coordinate System, Lambert Projection, as established by the U.S. Coast and Geodetic Survey. The central meridian for this coordinate system is located at Longitude 79° 00' West and the elevations given therein refer to Mean Sea Level Datum and are based on the U.S. Coast and Geodetic Survey's Southeastern Supplementary Adjustment of 1936.

TO HAVE AND TO HOLD the aforescribed easement rights unto the Grantee and unto its assigns forever.

The Grantors, for themselves, their heirs, executors, administrators, successors, and assigns, do hereby covenant to and with the Grantee that they are lawfully seized and possessed of the above described tract of land; that they have a good and lawful right to sell, and convey the above described easement rights therein; that said land is free and clear of all encumbrances; and that they will forever warrant and defend the title thereto against the lawful claims of all persons whomsoever.

In further consideration of the payment of the purchase price above stated, and in order that the land affected by the above described easement rights and the remainder of the Seller's land adjoining same may be thereby benefited and protected, the Grantors, for themselves, their heirs, personal representatives, successors, and assigns, do hereby covenant and agree that they will not use said adjoining land in any manner which will result in the draining or dumping into the reservoir created by the above mentioned dam or dams of any refuse, sewage, or other material which might tend to pollute the waters of said reservoir; and this covenant shall be a real covenant which shall attach to and run with said adjoining land and which shall be binding upon everyone who may hereafter come into ownership of said land, whether by purchase, devise or descent,

As a further consideration for the payment of said purchase price, the Grantors for themselves, their heirs, personal representatives, successors, and assigns, do hereby release

the United States of America and the County of Swain their successors, assigns, agents, and employees, from any and all liability for damages to the Grantors' remaining land by reason of any resulting loss of access facilities thereto. If, as a result of the highway plans ultimately adopted by the Grantee, the Grantors' remaining land should be furnished with access then in consideration of the furnishing of such access, the Grantors shall grant, execute, and deliver, without the payment of additional money consideration, a conveyance of a right of way easement not exceeding 100 feet in width, sufficient for use in the construction of said access road.

The Grantors understand and hereby agree that all buildings, structures, or other improvements, tents and house trailers, located on that portion of the above described land lying below 1715.63 elevation, Mean Sea Level, either constitute potential hazards to navigation or otherwise interfere with the program for the preparation of the reservoir for the above mentioned dam or dams, and must be ultimately removed. This conveyance is made, however, upon the condition that the Grantors may retain said buildings, structures, improvements, tents and house trailer on said land until December 1, 1943, provided that: (1) No buildings, structures, or other improvements, tents, or house trailers on the property shall be used for human habitation unless sanitary facilities, determined to be adequate by the Tennessee Valley Authority (the corporate creature and agent of the Grantee, which is hereinafter referred to as "Authority"), are provided in connection therewith. If the Authority determines that the sanitary facilities are not adequate, it may require the vacation of any and/or all buildings, structures, or other improvements, tents and house trailers, and require their removal or remove them if after 10 days notice the owner has failed to correct the situation by installation of necessary sanitary facilities specified in the Authority's notice, (2) If, in the opinion of the Authority's sanitary engineers, the water supply is inadequate for the purpose for which the property is being used, or if they determine that it is contaminated, the owner, in 10 days notice, must provide a new and adequate supply or upon failure to do so, the Authority may require the vacation of any and/or all buildings, structures, or other improvements, tents and house trailers, and require their removal or remove them. (3) No buildings, structures, or other improvements, tents or house trailers shall be used for any purpose or to carry on any business which might tend to lower the morals of the community or be incompatible with the development of the area through the expenditures of public funds, which restriction in the use of the property shall include the sale of wine, beer, and other beverages of alcoholic content. (4) No additional improvements to be used for human habitation shall be placed on the property unless the Authority approves of the sanitary facilities to be provided in connection therewith. (5) All buildings, fences, structures, or other improvements, tents and house trailers, may be salvaged by the Seller provided he removes the same from the land prior to December 31, 1943

Wherever the context hereof requires, the plural number as used herein, shall be read as singular, and the masculine gender as feminine or as neuter,
